I do not think the land east of the Bull temple road will be useful to the mission. A compact block would be necessary for their purposes. It seems to me that the portions of S.Nos 9 & 5 lying to the west of the Bull temple road & north of the proposed Sarjapur road & measuring (2 ac. 30 + 20) = 3 acres 10 guntas may be given to the mission at the price paid by Govt. Out of this area one acre has already been given to the mission vide order dated 20 Aug 06). This extent will I think be quite ample for immediate requirements & the grant of further land may be considered when the mission starts work. In such a grant S.Nos 6 & 8 south of the proposed Sarjapur road will be suitable. The lands marked yellow appear to be private lands, & there is no necessity for Govt to acquire them just now.
